(a) Robustness to missed detections
ARTORG (4 wells)
Song et al. (3 videos)
Hachey et al. (1 video)
change = removed
measured miss rate
Change in features (%)
Detections removed at random (%)
(b) Robustness to a longer frame interval
Change in features (%)
5 min
15 min
1 h
4 h
Frame interval (log scale)
(c) Reproducibility across replicate wells
departures from vessels vs. chance 98%
arrivals on vessels vs. chance 96%
arrivals on vessels 95%
departures from vessels 95%
track length 94%
departure rate 94%
speed on vessels 87%
intravasation rate 85%
extravasation rate 84%
speed off vessels 77%
arrival rate 70%
extravasation at regressing vessels 59%
Reproducibility across 4 ARTORG wells (%)
